Larry:

Understood, I'm well aware of the Boquerón meeting, but I have not seen any documents from Mr. D. Pagan or at least it was not forward to me. In the meeting you described we decided to treat the first meeting outside of the Interagency, and it was contingent that Mr. D. Pagan submit the requested plans. Please remember that keeping the Corps, specially the PM in the loop will help to streamline and have an efficient process.

As mentioned in the aforementioned meeting, the plans that Mr. D. Pagan was to provide, needed to be on hand to be discussed in the meeting planned for today.

FWS stated today that, they are not available at this time, the information was received Monday, and that it is incomplete, as the documents do not include schedules. FWS will comment later on the document submitted by Mr. D. Pagan.

Respectfully,

Good morning FOIA Exemption (b)(6) -

This is the conference call we agreed to hold to vet the proposed list of members to make up the field teams that would walk the centerline of the pipeline in the three areas identified by USFWS. The date was selected at the meeting we last had, that you, FOIA Exemption (b)(6) participated in, with USFWS in Boqueron. Danny P. was to prepare a proposed list, as well as lay out protocol to address issues with the Hawks, etc., and send that notice to USFWS. We would then discuss the proposed team membership on this call so we could reach agreement and proceed with the field work. We chose Nov 9 because that was a date that there was supposed to be an interagency meeting at the Corps' office.

Hope this helps.

Good afternoon FOIA Exempti

I was informed that USFWS has scheduled a conference call for tomorrow to address their concerns. Do you know what time the conference call is scheduled for? And, do you happen to know the conference call phone number that should be used?

Thank you.

Best Regards,
