Subject: Via Verde pending permit status on Regulatory Website

FOIA Ex

Could you please help me better understand how often a pending permit action is updated on the District's "Regulatory Division - Pending Permits" Quick Link? I presume the permit status is populated by the data in ORM. Presently, when the Via Verde permit number (SAJ-2010-02881) is populated into that link, the most current action is dated 1 October 2010 and indicates a Nationwide Permit is still pending. Wouldn't that more appropriately be a "Standard Permit" action with a date on, or after, 1 October and with subactions indicating the initial application is determined complete, PN issued, etc.?

Also, I presume the monthly status update statement we discussed will be posted in the "Actions of Interest" location on the website (perhaps underneath the current project description statement) ... correct?

Thanks and best regards!
